# The Future of Nuclear Medicine: A Focus on Quality and Therapy

Plan to attend the CCSNMMI's Annual Spring meeting which will be held at the Doubletree by Hilton Chicago in Oak Brook, Illinois on the weekend of March 25th -26th, 2017.

*The Future of Nuclear Medicine: A Focus on Quality and Therapy* program is aimed to provide physicians, physicists, and technologists with an abundance of information on new radiopharmaceuticals, standards of practice, and clinical considerations for therapy and neuroimaging. Additionally, at the end of the program, all attendees will be able to identify the usefulness of PET/CT apart from tumor imaging, and respected practice standards for pediatrics and breast imaging. Leadership from the national level will be speaking on advocacy and how the SNMMI works to protect our profession. Several of lectures will provide SAMS credits (self-assessment modules) for audience participation and learning. For our technologist students, don't forget to sign up for the Quiz Bowl where students from different schools compete against each other in a nuclear medicine knowledge-based, jeopardy-style competition for bragging rights and to earn their name on the Quiz Bowl trophy! After a day of insightful presentations, join us for a happy hour style social mixer where you can mingle with fellow professionals in a casual and relaxed atmosphere. Afterward you can explore the many shopping and dining options Oakbrook, Illinois has to offer.
