2017 Southeastern Chapter Society of Nuclear Medicine and Molecular Imaging’s Annual Meeting

Rediscovering the Magic of Nuclear Medicine in the Magic City
You are invited to attend the 2017 Annual Meeting of the Southeastern Chapter of the Society of Nuclear Medicine & Molecular Imaging, *Rediscovering the Magic of Nuclear Medicine in the Magic City* to be held October 6-8, 2017 at The Westin Birmingham in Birmingham, Alabama. The meeting will be filled with valuable and timely education for the Nuclear Medicine community. Lectures qualify for CEU and CME, and we are planning several SAM sessions. The target audience includes physicians, physicists, technologists, and radiopharmacists.

Program Chairs, Chirayu Shah, MD from the Tennessee Valley Healthcare System and Vanderbilt University Medical Center, Dori L. Browning, BS, CNMT, NCT from Kentucky Cardiology and Norman E. Bolus, MSPH,CNMT,FSNMMI-TS, University of Alabama at Birmingham and President-Elect of the SNMMI-TS, have organized an excellent and diverse program with many interesting and timely topics. The focus of this meeting will be on what the future holds for Nuclear Medicine Professionals. In addition, again this year we are planning to present abstracts by residents, basic science trainees, technologists, and technologist students, which will encourage thought, creativity and scholarly activity.

The SECSNMMI Annual Meeting is returning to Birmingham, Alabama. Nestled at the foothills of the Appalachian Mountains at the cross-section of two major railroads, the city was once the primary industrial center of the southern United States. At the height of the nation’s manufacturing age, the city grew so fast in population, it was called the “Magic City.” Today, Birmingham has transformed itself into a medical research, banking and service-based economy, making it one of the nation’s most livable cities with a vibrant downtown, a burgeoning loft community, a world-class culinary scene and more green space per capita than any other city in the nation!
