ILLINOIS RADIOLOGICAL SOCIETY

By: Jessica Nardulli & Tom Ryder

May 15, 2017

The General Assembly is set to adjourn May 31st. If there is no budget by that date, they will need a 3/5 majority rather than a simple majority of votes to pass one. That said, the common thinking is that Illinois will continue to limp along without a budget until after the 2018 gubernatorial election. Whether you care about local governments, or schools, or pension debt, or bond ratings, or human services; this is just terrible news for our entire state. Some rank and file members are doing their best to keep pressure on their leaders to strike a budget compromise.

We expect the House Democrats to present their own reform package tomorrow to present items they believe should be part of the bargaining process. Additionally, the Senate is still trying to make a comprehensive deal. Time is quickly running out. Stay tuned!

[HB 311 NETWORK ADEQUACY TRANSPARENCY](#) Sponsors Rep.

Harris; Sen. Holmes

****This is an ISMS initiative which passed the House 110-02-1. With a new amendment in the Senate, HB 311 passed out of Senate Insurance committee 10-0. Presuming the bill passes the full Senate, it will need to return to the House for a concurrence vote before it can go to the Governor.**

Synopsis As Introduced

Creates the Network Adequacy and Transparency Act. Provides that administrators and insurers, prior to going to market, must file with the Department of Insurance for review and approval a description of the services to be offered through a network plan, with certain criteria included in the description. Provides that the network plan shall demonstrate to the Department, prior to approval, a minimum ratio of full-time equivalent providers to plan beneficiaries and maximum travel and distance standards for plan beneficiaries, which shall be established annually by the Department based upon specified sources. Provides that the Department shall conduct quarterly audits of network plans to verify compliance with network adequacy standards. Establishes certain notice requirements. Provides that a network plan shall provide for continuity of care for its beneficiaries under certain circumstances and according to certain requirements. Provides that a network plan shall post electronically a current and accurate provider directory and make available in print, upon request, a provider directory subject to certain specifications. Provides that the Department is granted specific authority to issue a cease and desist order against, fine, or otherwise penalize any insurer or administrator for violations of any provision of the Act. Makes other changes. Effective January 1, 2018.

House Committee Amendment No. 1

Replaces everything after the enacting clause. Reinserts the introduced bill with the following changes: Removes the definition of "administrator". Includes in the definition of "insurer" workers compensation insurance and pharmacy benefit managers. Defines "telehealth" and "telemedicine". Removes references to "administrators" throughout the Act. Removes provisions requiring an insurer providing a network plan to file the following information with the Director of Insurance: the method of the marketing plan and certain written policies and procedures. Provides that insurers shall provide the Director a description of how the use of telemedicine, telehealth, or mobile care services may be used to partially meet the network adequacy standards (rather than a description of each network hospital of the percentage of physicians in certain specialties who practice in the hospital are in the insurer's network). Provides that the Department shall consider establishing ratios for certain physicians or other providers (rather than requiring ratios at a minimum to include certain physicians or other providers). Provides that maximum travel and distance standards for network plan beneficiaries established annually by the Department shall be done in consultation with the Department of Public Health. Removes the requirement that the network plan must demonstrate, prior to approval, that it has contracted with physicians who specialize in certain areas in sufficient numbers at any in-network facility or in-network hospital so patients have reasonable access to the in-network physicians. Provides that the network plan shall demonstrate sufficient inpatient services. Provides that the network plan may consider use of other health care service delivery options. Provides that the Director may (rather

Requires the Department, when examining certain factors, to determine whether a prior conviction will impair the ability of the applicant to engage in the practice for which a license, certificate, or registration is sought (rather than examining certain factors in determining whether to grant a license, certificate, or registration). Removes an affirmative obligation of the Department to demonstrate that a prior conviction would impair the ability of an applicant. Provides that if it not reasonably feasible to include the language in the application, the entity authorized to grant a license, certification, or registration shall publish on its website instructions specifying that applicants are not obligated to disclose sealed or expunged records of a conviction or arrest. Removes changes to provisions concerning retention and release of sealed records. Removes the immediate effective date.
