

Weekly Legislative Report

ILLINOIS RADIOLOGICAL SOCIETY

By: Jessica Nardulli & Tom Ryder

May 2, 2017

Last week the General Assembly finished their work on bills in the first chamber. Only the Senate will be in Springfield this week to hear House bills in Senate committees. Both houses return May 9th.

Governor Rauner and Speaker Madigan met last week for the first time this year. Following the meeting, Speaker Madigan indicated he asked the Governor to focus his attention on the budget. Governor Rauner signaled that the Speaker "hinted" he might be willing to work on additional reforms. Although the historic budget stalemate continues, some legislators from both parties have filed budget bills of their own to attempt to break up the impasse.

Increased revenue from spring tax filings allowed the Comptroller to release much-needed payments to healthcare providers. \$800.8 million was distributed to eleven MCOs, which will allow the State to bring in an additional \$418 million in federal matching dollars. MCOs will in turn pay providers for services already delivered. Additionally, \$151.7 million was released to Illinois hospitals. Medicaid payments, while not appropriated, are authorized through consent decrees and court orders.

Finally, HB 109, the "lifeline" budget bill including more than \$750 million for higher education and human services passed the House, bypassed a Senate committee, and is awaiting final action in that chamber. Stay tuned.

Provides that the Department shall consider establishing ratios for certain physicians or other providers (rather than requiring ratios at a minimum to include certain physicians or other providers). Provides that maximum travel and distance standards for network plan beneficiaries established annually by the Department shall be done in consultation with the Department of Public Health. Requires the Department, upon denial of a license, certificate, or registration, to provide the applicant certain information concerning the denial. Senate Committee Amendment No. 1

Replaces everything after the enacting clause with provisions of the introduced bill with the following changes: In provisions amending the Department of Professional Regulation Law of the Civil Administrative Code of Illinois, includes licensing Acts administered by the Department of Financial and Professional Regulation in which convictions of certain enumerated offenses are a bar to licensure as an exception to the requirement that the Department consider mitigating factors and rehabilitation. Requires the Department, when examining certain factors, to determine whether a prior conviction will impair the ability of the applicant to engage in the practice for which a license, certificate, or registration is sought (rather than examining certain factors in determining whether to grant a license, certificate, or registration). Removes an affirmative obligation of the Department to demonstrate that a prior conviction would impair the ability of an applicant. Requires the Department to notify an applicant of a denial of a license or certificate or refuse to grant registration based upon a conviction or convictions, in whole or in part. In provisions amending the Criminal Identification Act, provides that applications for certification, registration, or licensure (rather than employment, certification, registration, or licensure) shall (rather than must) contain certain language. Provides that if it not reasonably feasible to include the language in the application, the entity authorized to grant a license, certification, or registration shall publish on its website instructions specifying that

applicants are not obligated to disclose sealed or expunged records of a conviction or arrest. Removes changes to provisions concerning retention and release of sealed records. Removes the immediate effective date.
