ILLINOIS RADIOLOGICAL SOCIETY

By: Jessica Nardulli & Tom Ryder

Legislative Update and Report prepared for *Illinois Radiological Society* for the week beginning May 4, 2015.

Four weeks remain before the scheduled adjournment of May 31. The House has 22 scheduled session days starting today and the Senate has 20 days scheduled. Both chambers are busy with committees this week.

The activity level is becoming more intense. The budget is receiving more attention. Special working groups are meeting. These working groups contain Senators and Representatives from both parties as well as staff from the Governor's office. The topics that the groups are considering include revenue, budget implementation, economic growth, taxpayer protection, transforming government and pension reform. Additionally, the House has scheduled for today a rare Committee of the Whole to hear testimony about the complicated issue of worker's compensation insurance.

Again, the highlighted actions mark action on the bills since the prior week's report. As always, please feel free to contact us with any questions, comments, or concerns.
